

FROM THE ARCHIVES

This department revisits selected articles from NCTM's legacy journals, reprinting them alongside contemporary analysis and commentary. Although unsolicited submissions are not accepted, a participant of the monthly, online discussion group, *MTLT* Teacher Talk, writes the introduction for the reprinted article we discuss during the Teacher Talk. For a sample, see Appendix 8.

MTLT's Teacher Talk takes place on the first Tuesday of each month and is open to both NCTM members and non-members (register at nctm.org/online-learning). If you and your math education peers (e.g., a methods class, math department, teacher circle) are interested in attending a Teacher Talk together and authoring that month's introduction, please reach out to mtlleditor@nctm.org. Follow us on X ([@NCTM](https://twitter.com/NCTM)) to keep up-to-date on upcoming Teacher Talk events.
